# Blackjack

Create a console application of the card game Blackjack.

The rules of the game can be found here: Black Jack Rules

## Further requirements

- The game should be terminal based (text based), so no gui should be implemented.
- The game should be a single player game. One player against the computer.
- The player should be able to choose if he or she wants to be a player or a dealer.
- A bet functionality should be implemented.

## Important!

Be sure too read the general requirements for all projects on this page
